Summary

B. Tech Computer Science Engineering student with hands-on experience in **Full-Stack Web Development, JavaScript, React.js, Node.js, Python, C++, SQL, MongoDB, and Git/GitHub**, along with practical exposure to **AI/ML, and data-driven applications**. Experienced in developing and deploying web applications, AI-based projects and management systems through internships, academic projects, and independent development. Seeking an entry-level **Software Developer, Web Developer** role to apply my technical skills and grow as a software professional.

Skills

- Programming Languages:** C++, Java
 - Web Development:** HTML, CSS, JavaScript, React.js, Node.js, Next.js, REST APIs
 - Databases:** MySQL, MongoDB, DBMS
 - AI/ML:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Streamlit, Power BI, Jupyter Notebook, Google Colab,
- Core Strengths:** Problem-solving, logical thinking, debugging, adaptability, teamwork, communication, project development, continuous learning, and ability to learn and work with new technologies.

Experiences

CodeVocado — Web Developer Intern

Apr 2025 – Jul 2025

- Contributed to web development projects and implemented Web functionality using React.js, Flask, MySQL
- Collaborated on development tasks, debugging, and improving application functionality.

Edunet Foundation — AI Intern | TechSaksham

Feb 2025 – Mar 2025

- Completed an AI-focused internship under **TechSaksham**, a joint CSR initiative of Microsoft & SAP implemented by Edunet Foundation.
- Gained practical exposure to **Artificial Intelligence and technology-driven learning** through the internship program.

Projects

Copilot Mini — AI-Powered Coding Assistant | Next.js, TypeScript, React, Prisma, PostgreSQL, GitHub API | [GitHub](#) | [Live Demo](#)

- Developed and deployed a **full-stack AI coding assistant** supporting **Gemini**, with streaming AI responses and persistent conversation history.
- Implemented **10 AI-powered code intelligence tools** including code explanation, bug detection, refactoring, security scanning, performance analysis, code translation, unit-test generation, documentation, commit-message generation, and code-diff analysis.
- Integrated **GitHub OAuth and GitHub API** to browse repositories, edit files using **Monaco Editor**, generate AI commit messages, commit changes, and perform automated **AI pull-request reviews**.

AI Resume Interview Mock Portal | React.js, Flask, MySQL, Claude AI | [GitHub](#) | [Live Demo](#)

- Built a full-stack AI interview platform that analyzes **PDF/DOCX resumes** and generates personalized technical & HR questions using **Claude AI**.
- Implemented **JWT + OTP authentication, timed interviews, webcam/anti-cheat monitoring, performance analytics, AI feedback, and PDF report generation**.
- Developed REST APIs with Flask and integrated **MySQL** for users, resumes, interviews, questions, results, feedback, and violation tracking.

Water Pollutants Predictor | Python, Streamlit, Scikit-learn, Pandas, NumPy | [GitHub](#)

- Developed a machine learning web application to predict six water-quality parameters using Year and Station ID as inputs.
- Implemented a Random Forest + Multioutput Regressor model with Pandas, NumPy, and Scikit-learn to predict Dissolved Oxygen, Nitrate, Nitrite, Sulfate, Phosphate, and Chloride levels from historical water-quality data.
- Built an interactive Streamlit dashboard featuring data visualizations, predicted-vs-real comparisons, station mapping, interactive charts, and CSV result downloads for environmental monitoring.

Education

- | | |
|--|-------------|
| Brainware University B.Tech in Computer Science and Engineering CGPA: 8.65/10 | 2023 – 2027 |
| Rabindranath Institutions Higher Secondary Percentage: 64.60% | 2022 – 2023 |
| Rabindranath Institutions Secondary Percentage: 78.43% | 2020 – 2021 |

Key Achievements

- Global AI Hackathon Finalist** — Selected as a **finalist in a Global AI Hackathon**, demonstrating practical problem-solving and emerging AI technologies.
- Technical Leadership** — Served as **Tech Lead at Creatiq Media**, contributing to technical development, project execution, and team collaboration.
- TechSpark Summit 2026 — Organizer & Host** — Organized and hosted **TechSpark Summit 2026**, a student-focused technology and career development summit featuring sessions on **Web Development and Generative AI**.

Courses & Certificates

AI/ML Specialist — ISRO (IIRS) | ISEA Phase III — Information Security & Cyber Security | Full-Stack Web Development — STP Computer Education | Microsoft Elevate — Power BI | IBM SkillsBuild — AI/ML Certifications

Languages

English - Professional Proficiency | **Hindi** - Native Proficiency | **Bengali** - Conversational Proficiency
